

Atul Sharma

Aspiring Frontend Developer | JavaScript

+91 7206365276 | atulsharmx0@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

BCA student at SGT University with hands-on experience in building web applications using HTML, CSS, and JavaScript. Comfortable managing projects with Git and GitHub, and deploying live sites via Vercel and Netlify. Looking for a Frontend Developer Intern role to apply these skills in a real product environment.

SKILLS

Technical Skills: HTML | CSS | JavaScript | Git | GitHub | Python

Competencies: Problem Solving | Self-Driven | Communication | Responsive Design

PROJECTS

E-Commerce Storefront

Feb 2026

Solo Developer | **Tech:** HTML, CSS, JavaScript

[Live Demo](#) · [GitHub](#)

- Built a responsive e-commerce storefront that pulls real product data from FakeStoreAPI, with real-time search, category and price-range filtering, and a persistent cart sidebar featuring live subtotal calculation, quantity controls, and toast notifications for user actions.

Analytics Admin Dashboard

March 2026

Solo Developer | **Tech:** HTML, CSS, JavaScript, Chart.js

[Live Demo](#) · [GitHub](#)

- Built an admin analytics dashboard featuring Chart.js-powered revenue and category sales visualizations, a live user directory fetched from a REST API with real-time keyword search and add/delete functionality, demo authentication, and a persistent light/dark theme toggle.

The Full-Stack Safety Net

April 2026

Solo Developer | **Tech:** HTML, CSS, JavaScript

[Live Demo](#) · [GitHub](#)

- Built a task management dashboard with signup, login, and one-click guest access, persistent localStorage-based multi-user data, full task CRUD with priority filtering and keyword search, plus a real-time safety-score metric tracking each user's overall task completion rate.

File Storage System

May 2026

Solo Developer | **Tech:** Python, FastAPI, AWS S3 (Boto3)

[Live Demo](#) · [GitHub](#)

- Built a file storage backend using Python, FastAPI, and AWS S3-compatible storage, supporting file upload, metadata listing, keyword search, and delete operations, backed by handwritten merge sort and binary search algorithms and a minimal web interface for file management.

EDUCATION

Bachelor of Computer Applications (Data Science)

Aug 2025 - Aug 2028
